The HEALTH/FAMILY & CONSUMER SCIENCES initial licensure program prepares health educators to be proficient in the Massachusetts Professional Standards for Teachers, the National Health Education Standards, and the American Association of Health Education/National Council for Accreditation of Teacher Education standards.

Learning Outcomes — Our graduates are experts in health education content, able to conduct a needs assessment, plan and implement curriculum, assess student learning, coordinate school health, advocate for health education, and serve as a resource to the school, students and their families, and the community.

Our students graduate with confidence in their ability to teach comprehensive skills-based health education as a component of coordinated school health. They know how to identify student risk factors and help young people reduce their risky behavior and improve their personal health and academic performance.

Careers — Graduates teach (preK-12) and work as health educators in many settings: local health departments, hospitals and clinics, business and industry. In colleges, they also teach courses and conduct research.

Admissions requirements:
- Bachelor’s degree and other general requirements (see Admissions).
- Bachelor’s degree with competencies in relevant content areas: personal health and wellness, child and adolescent growth and development, psychology, drug abuse prevention, nutrition, human sexuality. 24 credit hours total (including anatomy and physiology).
If content area coursework (other than anatomy and physiology) are not completed at time of admission, students may complete them concurrently.

Matriculation: All new students must register for the non-licensure option until they pass the MA Communication & Literacy Test (MTEL).

Non-licensure option: All program components are required except the Practicum, Practicum Seminar and teacher tests. Non-licensure students must complete all pre-practicum hours embedded in the courses.

Satisfactory academic progress — All students must maintain a minimum GPA of 3.0 or be placed on academic probation.

SEI Endorsement optional — Health, Family & Consumer Science students are not required by the Mass. DESE to be endorsed in Sheltered English Immersion. If you are interested becoming endorsed, Cambridge College offers SEI605.

Program and course schedule subject to change.
